COURTS

HB 0028 (Rep. Williams; Sen Martwick) - ILLINOIS RECEIVERSHIP ACT

The Illinois Receivership Act establishes a comprehensive legal framework for the appointment and authority of court-appointed receivers. A receiver, acting as an agent of the court, may take possession of, manage, and, if authorized, transfer, sell, lease, or otherwise dispose of receivership property. The Act sets forth criteria for court

procedures, including notice and hearing requirements, and applies to a wide range of property types, including real estate, personal property associated with real estate operations, and business assets such as corporations, limited liability companies, and trusts.

The Act expressly excludes certain categories from its scope. It does not apply to residential real estate as defined in the Illinois Mortgage Foreclosure Law or to receiverships involving the appointment of a receiver under the Nursing Home Care Act. These exclusions help ensure that the Act does not interfere with existing statutory frameworks that govern receivership in those areas.

The legislation also omits any application to smaller-scale residential properties, such as those improved by one to six dwelling units, regardless of their incidental commercial or income-producing use. This reflects a legislative intent to focus the Act on commercial and business-related receiverships. In addition to defining key terms, the Act outlines the powers and duties of receivers, standards for disqualification, the treatment of receivers as lien holders, owner responsibilities, and the authority of the courts in overseeing receiverships. It further provides legal protections for receivers acting within their court-appointed roles. **(No Position)**

HB 1576 (Rep. Costa Howard; Sen Halpin) - CT OF CLAIMS TERMS-FEES-RULES

Amends Court of Claims Act. Provides that judges appointed by the Governor with the advice and consent of the Senate under the Act shall hold office for a term of 6 years and until their successors are appointed and qualified. Provides that each judge shall receive an annual salary as set by the Compensation Review Board. Authorizes the court to hold sessions and take evidence remotely as it deems necessary to expedite the business of the court. Authorizes the court to adopt administrative rules to provide for remote or electronic filing of a claim or other motion, participation in any capacity before the court, taking of evidence or testimony, conducting any business of the court, or payment of any fees to the court. Authorizes the court to adopt rules determining the form and manner of all filing fees and other charges due the court. Provides that all claims arising under the Act must filed within 5 years (instead of one year) of the crime on which a claim is based under the Crime Victims Compensation Act. **(No Position)**

HB 1615 (Rep. DeLuca; Sen Belt) - COURTHOUSE FLAG

The bill amends the Flag Display Act to expand the permissible and required locations for displaying the United States national flag at county courthouses. Under the revised provisions, each county board is responsible for ensuring that a United States national flag is kept flying from a suitable flag-staff either on the top of the courthouse or prominently displayed on its grounds. This change clarifies and broadens the previous requirement, which only specified that the flag be flown from the top of the courthouse. The new language ensures that counties have flexibility in how they display the flag while reinforcing their duty to maintain a visible and respectful display of the national emblem. **(No Position)**

HB 2436 (Rep. Gong-Gershowitz; Sen Aquino) - PUBLIC DEFENDER-COOK COUNTY

Amends the Counties Code. Provides that, in counties with a population over 3,000,000, representation by the public defender in immigration cases shall be limited to those arising or being heard within the geographical boundaries of the county where the public defender has been appointed to office and to those of county residents with immigration cases outside of the county unless the county board authorizes the public defender to provide representation beyond those limits (rather than limited to those arising in immigration courts located within the geographical boundaries of the county where the public defender has been appointed to office unless the county board authorizes the public defender to provide representation outside the county). **(No Position)**

HB 3359 (Rep. Gong-Gershowitz; Sen Hastings) - PEREMPTORY CHALLENGES-JURORS

Allows the court to impanel up to and including 4 alternative jurors instead of 1 or 2. Applies to actions commenced or pending on or after January 1, 2026. **(No Position)**

HB 3572 (Rep. Hirschauer; Sen Villa) - UNFIT MISDEMEANANT DIVERSION

Amends the Code of Criminal Procedure of 1963. Adds a Diversion of Unfit Misdemeanants Article to the Code. Provides that a defendant charged with one or more misdemeanors and for whom a court has determined that a bona fide doubt of the defendant's fitness has been raised may be admitted into an unfit misdemeanor diversion program only upon the approval of the court. Provides that the Illinois Supreme Court or any circuit court of the State may adopt rules establishing unfit misdemeanor diversion programs consistent with the Article. Provides that the court shall require an eligibility screening and an assessment of the defendant to determine whether the defendant may be able to receive mental health services under the Mental Health and Developmental Disabilities Code which shall reasonably assure his or her safety and that of the public and his or her continued participation in treatment. Provides that if, following this screening, the State and the defendant agree to the diversion and the court determines that the defendant is appropriate for diversion, the criminal charges may be dismissed with prejudice. Provides that if the court does not approve, the court shall order a fitness examination and the matter shall be governed by any other relevant provisions of the Fitness for Trial, To Plead, or to be Sentenced Article of the Code. Provides that the misdemeanor diversion program may maintain or collaborate with mental health and substance use treatment providers necessary to provide a continuum of treatment options commensurate with the needs of the defendant and available resources. Treatment programs shall comply with all relevant statutes and rules. Requires the Department of Human Services to provide care to persons determined to be subject to involuntary admission on an inpatient basis as defined in the Mental Health and Developmental Disabilities Code or may make arrangements with any other appropriate inpatient mental health facility to provide those services. Makes conforming changes in the Fitness for Trial, To Plead, or to be Sentenced Article of the Code. Provides that the Act may be referred to as the Diversion of Unfit Misdemeanants Act. **(No Position)**

Effective immediately. **(No Position)**

CRIMINAL JUSTICE, LAW ENFORCEMENT AND PUBLIC SAFETY**HB 1302 (Rep. Willams; Sen. Peters) - VICTIMS-HUMAN TRAFFICKING**

This legislation ensures that law enforcement officers cannot discourage victims from filing reports and must complete written reports for bona fide allegations of domestic abuse. Victims of human trafficking are allowed to seek to vacate convictions related to their victimization and may file expedited petitions for expungement or sealing. The bill also reinstates the requirement that retail victims receive 7 days' notice of court proceedings, with limited exceptions for urgent hearings, and updates statutory language to reflect current pretrial release practices. **(No Position)**

HB 1373 (Rep. Tarver; Sen. Cunningham) - PEACE OFFICER & FIREARMS-ETRACE

Amends the Criminal Code of 2012. Provides that law enforcement shall use the National Tracing Center of the Federal Bureau of Alcohol, Tobacco, Firearms and Explosives' eTrace platform or successor platform in complying with this provision. Provides that law enforcement shall participate in the National Tracing Center of the Federal Bureau of Alcohol, Tobacco, Firearms and Explosives' eTrace platform or successor platform's collective data sharing program for the purpose of sharing firearm trace reports among all law enforcement agencies in this State on a reciprocal basis. HB 1628 (Rep. Guzzardi; Sen. Aquino) - SEIZURE & FORFEITURE REPORT

The bill amends the Seizure and Forfeiture Reporting Act to revise and expand reporting requirements for law enforcement agencies and prosecuting authorities involved in property seizures. Under the new provisions, each law enforcement agency that seizes property must report specific information to the Illinois State Police within 60 days after December 31 of the year in which the seizure occurred. These reports must include data such as the accused individual's race, sex, age, zip code, and citations to relevant statutory authorities. If no seizures occurred, agencies must submit a report indicating no activity. Additionally, prosecuting authorities that issue notices of pending forfeiture are required to submit related information within the same timeframe.

The bill also refines the scope of reporting by removing prior requirements to include court record information and eliminates a mandate for agencies to report on received or spent forfeiture funds. Instead, it focuses reporting on seizures and notices of pending forfeitures. It also updates the requirements for documenting the use of forfeiture proceeds and mandates that a public, searchable database of seizure and forfeiture data exclude personally identifying information. The Illinois State Police is required to compile and publish aggregate data for each law enforcement agency, and by 120 days after the end of each calendar year, must submit a comprehensive written report to the General Assembly, Attorney General, and Governor. This report will include statewide data and categorized financial information regarding seizure-related activities and may also contain recommendations. The deadline for the Illinois State Police to establish and implement these requirements is extended to January 1, 2026. **(No Position)**

HB 2336 (Rep. DeLuca; Sen. Joyce) - LOCAL GOV-LIFT-ASSIST SERVICES

Amends the Fire Protection District Act and the Illinois Municipal Code. Provides that a municipality or fire protection district may fix, charge, and collect reasonable fees from an assisted living facility or nursing home facility for every lift-assist service after the 6th lift assist service provided to that assisted living facility or nursing home facility that year rendered by the municipality or fire protection district in connection with providing lift-assist services to a patient or other individual. Makes changes to definitions. **(No Position)**

HB 2409 (Rep. Kelly; Sen. Villivalam) - UNIFORM CRIME STATISTICS DATA

The bill, which may be cited as the Deputy Chief Pete Bendinelli PFAS PPE Act, amends the PFAS Reduction Act to regulate the sale and use of firefighting personal protective clothing and equipment containing intentionally added PFAS chemicals. Beginning January 1, 2026, any entity that sells such firefighting personal protective clothing to a person, local government, or State agency must provide written notice at the time of sale stating that the clothing contains PFAS chemicals and the reason for their inclusion. Both the seller and purchaser must retain a copy of this notice for at least three years, and the seller must provide this documentation to the Illinois Environmental Protection Agency upon request within 60 days.

The legislation further establishes a ban, effective January 1, 2027, on the manufacture, sale, offer for sale, or distribution of firefighting personal protective clothing containing intentionally added PFAS chemicals within the State. Additionally, it introduces the definition of “auxiliary firefighting personal protective equipment” and creates a separate compliance timeline for these items. Specifically, beginning January 1, 2030, such auxiliary equipment containing intentionally added PFAS chemicals may no longer be manufactured or sold in Illinois.

The bill updates terminology by replacing references to “firefighting personal protective equipment” with “firefighting personal protective clothing” to provide greater specificity and adds technical clarifications to improve implementation. These changes aim to phase out the use of hazardous PFAS substances in firefighter gear, thereby promoting safer working conditions for first responders while establishing clear notification and compliance requirements for manufacturers and sellers. **(No Position)**

HB 2551 (Rep. Guerrero-Cuellar; Sen. Porfirio) - FIRST RESPONDER TASK FORCE

The bill amends the First Responders Suicide Prevention Act by reinstating the First Responders Suicide Task Force and expanding its membership to enhance representation. The reconstituted Task Force will now include one member appointed by the President of the Senate who represents an organization that provides mental health training and support for first responders in Illinois. Additionally, it will include two members representing organizations that advocate on behalf of public safety telecommunicators, appointed by the Speaker of the House.

The legislation requires all Task Force appointments to be made within 30 days of the bill’s effective date. It charges the Task Force with issuing a final report to the General Assembly by December 31, 2026, and provides for its repeal on January 1, 2027. A typographical error in the existing statute is also corrected to ensure clarity and consistency in the Act’s language. This initiative seeks to strengthen mental health support for first responders, including telecommunicators, through structured review and recommendations. **(No Position)**

HB 2586 (Rep. Moylan; Sen. Morrison) - ISP TRAINING/ACADEMY DIVISION

The bill comprehensively amends the Illinois State Police Law within the Civil Administrative Code of Illinois, reorganizing and expanding various operational, training, and oversight functions of the Illinois State Police. It establishes updated responsibilities for the Division of the Academy and Training and formalizes the Division of Forensic Services’ role in issuing reports for drug tests, overseeing training for database entries, and advising local law enforcement on death scene investigations. The legislation also directs the Illinois State Police to create a State Missing Persons Clearinghouse to facilitate coordinated community responses to missing children and enables the agency to receive funding and property from a variety of legal sources.

The bill integrates and standardizes terminology and administrative structure across multiple statutes by replacing outdated references—such as “SWORD” with “LEADS” for the Law Enforcement Agencies Data System and “Division of Investigation” with “Division of Criminal Investigation”—and aligns the language with current practices. It further requires that the Illinois State Police report juvenile record submissions quarterly, though no longer directly to the General Assembly, and clarifies administrative terms and procedures throughout various related laws. The bill also renames and restructures key provisions, now referring to them as Alicia’s Law.

Additionally, the legislation amends the State Employee Indemnification Act to include law enforcement groups created under the Intergovernmental Drug Laws Enforcement Act and task forces involving the Illinois State Police under its definition of “employee.” It authorizes the Division of Criminal Investigation to pursue internet crimes against children and supports statewide cyber task forces. A new framework for managing criminal justice information systems is established by defining the CJIS Systems Agency and mandating adherence to the CJIS Security Policy set by the FBI. State and local government entities must comply with oversight from the CJIS Systems Agency, which may implement more stringent data protection standards. Finally, the Division of Patrol is designated as the lead agency for enforcing the Illinois Vehicle Code’s commercial vehicle safety standards. Most provisions will take effect on October 1, 2025, while others begin January 1, 2026. **(No Position)**

HB 2987 (Rep. Stuart; Sen. Belt) - WAREHOUSE TORNADO PREPAREDNESS

The Warehouse Tornado Preparedness Act requires all warehouse operators in Illinois to develop tornado safety plans for each facility, updated annually or after significant operational changes. Originally involving state agencies, recent amendments shift oversight and coordination to local authorities, including county emergency services and fire protection districts. Counties must now manage and review these plans, placing additional administrative and technical burdens on local agencies. New warehouse construction must meet stringent tornado safety standards, either through engineering analysis or FEMA guidelines. Starting in 2027, building inspectors must be certified by the International Code Council, adding to staffing and compliance responsibilities for counties. While some shelter requirements were relaxed, the overall shift emphasizes stronger local accountability, enhanced safety standards, and professionalized inspection practices. **(No Position)**

HB 3388 (Rep. Swanson; Sen. Anderson) - VEH CD-FIRE DEPT VEHICLES

The bill amends the Illinois Vehicle Code to expand the definition of “fire department vehicle” to include any recreational off-highway vehicle, all-terrain vehicle (ATV), watercraft, or aircraft designated or authorized by proper local authorities for fire department use. (ii) if a minor, an at-risk person, or a prohibited person obtains a firearm and uses it to injure or cause the death of a person or uses the firearm in connection with a crime, the civil penalty shall not exceed \$10,000. Modifies the circumstances under which a law enforcement agency may not refuse to accept a missing person report. Requires a law enforcement agency to notify a person responsible for the missing person's welfare, or other specified individuals, about specified efforts to locate a missing person. Provides that, if a person remains missing for 30 days after the date of report, the law enforcement agency shall immediately (rather than may) generate a report of the missing person within NamUs, and the law enforcement agency shall (rather than may) attempt to obtain specified information and materials that have not been received. Modifies the follow-up action required by a law enforcement agency after creation of a missing person report. Modifies the definition of "high-risk missing person". Upon receipt of a missing person report (rather than immediately), requires the responding local law enforcement agency to enter all collected information relating to the missing person case in the Law Enforcement Agencies Data System and the National Crime Information Center. Makes other changes to reporting requirements. Modifies requirements for submission of fingerprints from unidentified remains for analysis as well as other requirements relating identified human remains. Provides that an assisting law enforcement agency, a medical examiner, a coroner, or the Illinois State Police may not close an unidentified person case until the individual has been identified and must keep the case active. Makes other changes. **(No Position)**

SB 0071 (Sen. Murphy; Rep. Keicher) - IEMA-SCHOOL SAFETY

Amends the Illinois Emergency Planning and Community Right to Know Act, requiring Local Emergency Planning Committees (LEPCs) and the State Emergency Response Commission (SERC) to collaborate with schools and school districts on safety threats posed by hazardous substances stored or transported near educational institutions. The bill mandates the development of comprehensive emergency response plans in consultation with local schools and grants rulemaking authority to the Illinois Emergency Management Agency and the Office of Homeland Security. Requires each school board to invite to each annual review the applicable emergency services and disaster agency or applicable local emergency planning committee. A compliance timeline of no more than two years will be set by LEPCs and SERC. For counties, this means enhanced collaboration between emergency planners and schools, increased resource demands, and strengthened safety measures to protect students and staff from hazardous material risks. **(Oppose)**

SB 0108 (Sen. Cervantes; Rep. Cassidy) - CRIM PRO-ASSESSMENT FEES

The bill amends the Code of Criminal Procedure of 1963 to clarify the definition of "assessments" for purposes of assessment waivers, explicitly including assessments imposed in counties with populations over 3,000,000. It removes a sunset provision that would have made this clarification inoperative after July 1, 2024, thereby

making the inclusion of such assessments permanent. These assessments include any costs imposed on criminal defendants under the Assessment Schedules Article of the Criminal and Traffic Assessment Act, such as those related to violations of the Illinois Vehicle Code.

Additionally, the bill makes technical updates to align with changes enacted by Public Act 103-1059, ensuring consistency within the statute. It also establishes that the amendments take effect immediately upon becoming law, allowing for uninterrupted application of the clarified definition in high-population counties like Cook County. **(No Position)**

SB 1348 (Sen. Cunningham; Rep. Williams) - SHERIFF-PROCESS SERVICE FEES

The bill amends the Counties Code to increase certain service fees that sheriffs in third class counties may charge for processing legal documents. Specifically, it authorizes a fee of \$60 for serving or attempting to serve any summons or other process filed in person on a defendant, and \$35 for serving or attempting to serve any such documents filed electronically—an increase from the current \$35 fee for all filings. It also updates the return fee structure, allowing \$25 for returning each process filed in person and \$15 for those filed electronically, compared to a flat \$15 return fee previously.

Additionally, the legislation introduces specific fees for serving orders or judgments for possession in real estate or eviction cases. Sheriffs in third-class counties may now charge \$60 for such services when filed in person and \$35 when filed electronically, aligning with the updated fee structure for other civil processes. These changes aim to modernize fee collection in line with electronic and in-person filing distinctions while preserving consistency across service types. **(No Position)**

SB 1701 (Sen. Cunningham; Rep. Hoffman) - PUBLIC LABOR-POLICE SUPERVISOR

The bill amends the Illinois Public Labor Relations Act to refine the definition of “supervisor” as it applies to police officers, particularly in relation to collective bargaining eligibility. For police officers not employed by the Illinois State Police, a “supervisor” is defined as an officer in a permanent rank not subject to promotional testing under specific provisions of the Illinois Municipal Code. For Illinois State Police officers, the rank of Lieutenant Colonel or higher is considered supervisory.

The legislation also establishes several exclusions from the definition of “supervisor.” These include officers temporarily assigned supervisory duties without a change in permanent rank, officers excluded from supervisory classification by a collective bargaining agreement, officers holding ranks that require completion of a written test, officers in positions or ranks that have been voluntarily recognized by the employer as part of a collective bargaining unit, and officers whose ranks have historically been included in such agreements. These refinements aim to clarify supervisory status in the context of labor relations and maintain continuity in union representation for police officers in various ranks and roles. **(No Position)**

SB 1899 (Sen. Sims; Rep. Slaughter) - FOID-DIVERSIONARY PROGRAM

Provides that a State's Attorney, at his or her discretion, may request that a defendant charged with an unlawful possession of weapons offense or aggravated unlawful possession of a weapon offense, if punishable as a Class 4 felony or lower, be sentenced to an appropriate diversion program. **(No Position)**

SB 1953 (Sen. Turner; Rep. Buckner) - POLICE RECORDS & SHERIFF BOARD

The legislation amends the Illinois Police Training Act and related laws to strengthen the transparency and accountability of the hiring process for law enforcement officers. It requires that no law enforcement agency may extend a final offer of employment to any applicant for a full-time or part-time law enforcement position without first obtaining a signed release from the applicant. This release authorizes prior employers to disclose a comprehensive set of employment records, including background investigation materials, fitness-for-duty exams, performance evaluations, and any criminal, civil, or administrative investigations. The bill mandates that these records be produced without redaction, and it prohibits nondisclosure or settlement agreements from preventing their disclosure, except where such requirements would impair an existing collective bargaining agreement.

The legislation outlines detailed procedures for requesting and producing these records, sets deadlines for compliance, and establishes penalties for agencies that fail to comply. It provides that entities releasing records in accordance with a signed release form will receive immunity from liability. Additionally, the bill amends the Personnel Record Review Act to ensure that law enforcement personnel files are released to hiring agencies upon request for employment determinations. It provides full immunity (rather than merely qualified immunity) to the Illinois Law Enforcement Training Standards Board and to previous employers for disclosing such information.

The bill also amends the Sheriff's Merit System Law within the Counties Code. It requires counties with populations of at least 75,000 to adopt the sheriff's merit system by ordinance. For counties with populations under 75,000 that do not already have a merit board or commission, the bill continues to allow, but does not require, the adoption of the merit system. These changes aim to standardize hiring practices, improve information sharing, and enhance the quality and accountability of law enforcement personnel statewide. **(No Position)**

Provides that an online marketplace shall identify, on its Internet website or application, the high-volume third-party sellers that are certified as operating in a legal and ethical manner and develop a means of making the certification. Provides that an online marketplace shall alert local, regional, or State law enforcement agencies if it suspects that a person or entity is selling or attempting to sell stolen goods to a resident of the State. SB 2323 (Sen. Morrison; Rep. Williams) - HUMAN TRAFFICKING-VICTIMS

This legislation, known as the Illinois Statewide Trauma-Informed Response to Human Trafficking Act, introduces comprehensive reforms across multiple state agencies to improve identification of and services for victims of human trafficking. It mandates that the Department of Children and Family Services (DCFS) maintain a dedicated human trafficking unit to coordinate services, initiate prevention efforts, and assist caseworkers in supporting youth in care who are victims or at high risk of trafficking. DCFS must screen all youth during their initial integrated assessment to identify those at high risk based on commercial sexual exploitation and other indicators, and ensure these individuals receive specialized services. The Department must also incorporate trafficking-related services into its broader community-based service framework.

The bill also requires the Department of Human Services to develop a strategic plan, in consultation with advocates and survivors, to establish a trauma-informed, victim-centered statewide system of response and care. This plan must include recommendations for phased funding and mandatory training for caseworkers, treatment providers, foster parents, and others involved in caring for victims of human trafficking. Parallel responsibilities

are assigned to the Illinois State Police, which must create a strategic plan to improve its law enforcement response to trafficking victims. Additionally, the Illinois Law Enforcement Training Standards Board is tasked with working alongside law enforcement agencies, service providers, and survivor leaders to establish certified training curricula on detecting and responding to human trafficking in a trauma-informed manner.

Further provisions amend other relevant statutes to coordinate agency responsibilities related to human trafficking and streamline the state's approach. The amendment removes provisions that previously enhanced penalties for crimes such as involuntary servitude when the victim is a minor, opting instead for language directing sentencing courts to consider the victim's age when determining penalties for trafficking-related offenses. It also eliminates a confidentiality requirement related to human trafficking investigations by the Illinois State Police or multi-disciplinary task forces. The legislation is set to take effect on January 1, 2026.

ECONOMIC DEVELOPMENT

HB 3493 (Rep. Mason; Sen. Halpin) - LOCAL REG-STATE FACILITIES

This legislation limits the ability of local governments to enforce ordinances or permitting requirements on the construction, reconstruction, improvement, or installation of state facilities. However, local regulations related to sanitary districts, municipally owned wastewater systems, and environmental protection may still apply if they are required by state or federal law and supported by industry standards. The Capital Development Board may request verification from local entities to ensure these requirements are valid. While local governments cannot impose general permitting fees, they can recover fair and reasonable costs directly related to a state facility's impact on local infrastructure. The bill aims to streamline state facility development while preserving essential local oversight in specific areas. **(Oppose)**

Specifies that a design-build entity shall not be disqualified solely due to having previously been awarded a project or projects under any applicable public procurement statute of the State. Amends the Illinois Municipal Code. HB 3141 (Rep. Keicher; Sen. DeWitte) - ENVIRONMENTAL PROTECTION ACT EXEMPTION

This legislation amends the Environmental Protection Act to clarify the Illinois Environmental Protection Agency's (IEPA) role in reviewing and approving water main installation projects. It mandates that all water mains and associated appurtenances—including fire hydrants and valves—must be included in the IEPA's written approval when they are owned and controlled by a public water supply and located within a public right of way or utility access easement. The bill reinforces that the IEPA holds sole responsibility for the design review and permitting of such infrastructure, ensuring that these elements are installed according to the specifications outlined in the agency's permit.

Additionally, the legislation establishes a distinction for fire hydrants that are connected to plumbing systems rather than public water mains. It requires that such hydrants must comply with the standards set forth in the Illinois Plumbing License Law and the corresponding administrative rules and local ordinances. By defining agency authority and installation requirements more clearly, the bill aims to ensure consistent public safety standards and regulatory oversight across water infrastructure projects involving fire protection systems. **(No Position)**

SB 0224 (Sen. DeWitte; Rep. Keicher) - EPA- WATER MAIN INSTALLATION

This legislation amends the Environmental Protection Act to clarify the scope of the Illinois Environmental Protection Agency's (IEPA) authority in approving water main installation projects. Specifically, it requires that all water mains and related appurtenances—including fire hydrants and valves—be included in the IEPA's written approval when those components are owned and controlled by a public water supply and located within a public right of way or utility access easement. The legislation establishes that the IEPA has sole authority over the design review and permitting of such infrastructure, and that installation must comply with the terms of the agency's permit.

The bill also distinguishes between fire hydrants connected to public water mains and those connected to plumbing systems. It mandates that hydrants connected to plumbing systems must be installed in accordance with the Illinois Plumbing License Law and the relevant administrative rules and local ordinances. These changes ensure a clear division of regulatory oversight, promote consistency in public water infrastructure development, and reinforce safety standards for fire protection systems. **(No Position)**

This legislation, effective July 1, 2026, strengthens and expands transition planning requirements for youth in the care of the Illinois Department of Children and Family Services (DCFS). It mandates that DCFS prepare all adolescents, including those who may qualify for guardianship under the Probate Act, for a successful transition to adulthood through individualized, youth-driven transition plans starting at age 15. These plans must be age- and developmentally appropriate and address housing, health and well-being, education, employment, financial stability, supportive relationships, access to adult services, and parenting resources when applicable. The Department must incorporate these plans into each youth's service plan, assist in resolving barriers, and ensure that youth are aware of and able to access post-case closure services.

In addition, the legislation amends the Juvenile Court Act of 1987 to require courts to hold regular "Successful Transition to Adulthood Review" (STAR) hearings. These hearings will evaluate DCFS's efforts to support youth aged 18 and older—particularly those with goals of independence or home environments deemed not appropriate—in preparing for adulthood. The Department must present documentation on the youth's participation in life skills development activities, including extracurriculars and coaching. If a court finds DCFS has not made reasonable efforts, it may issue further orders to ensure the youth is prepared to exit care successfully at age 21. The legislation also requires STAR hearings whenever wardship is reinstated. **(No Position)**

Provides that retainage may not be used as a substitute for good contract management, and the State agency may not withhold funds without cause. Provides that determinations to retain and the specific amount to be withheld must be made by the State agency on a case-by-case basis based on the performance of milestones under the current contract as provided for in the contract between the State agency and the contractor. This legislation amends the Victims' Economic Security and Safety Act to strengthen protections for employees who are victims—or who have household or family members who are victims—of domestic violence, sexual violence, gender violence, or other crimes of violence. This access must also be provided to a family or household member if the employee is seriously injured or incapacitated and the requestor's interests are not adverse to the employee.

Further, the legislation prohibits employers from retaliating against an employee or depriving them of employer-issued equipment for using such equipment to document acts of violence against themselves or their family or household members. Employers must comply with any related legal investigations, court orders, or subpoenas involving such materials. While employers must permit this access, the bill clarifies that it does not relieve employees from following reasonable workplace policies or from performing essential job duties. The measure also requires employers to post a notice summarizing these rights in a conspicuous workplace location. The legislation takes effect immediately. **(No Position)**

HB 1362 (Rep. Kifowit; Sen. Wilcox) - SERVICE MEMBER EMPLOYMENT-COMP

The bill allows service members to use accrued vacation or paid leave during active service if they choose. It permits public employees to receive differential pay for both annual training and substitute training orders, capped at 30 days per year. Differential compensation ends if a public employee is voluntarily on active service for three consecutive years. However, the right to differential pay is reinstated after returning to work for at least 90 days.

SB 0069 (Sen. Murphy; Rep. Katz Muhl) - INS CODE-RIDING THERAPY

This legislation amends several statutes, including the Illinois Insurance Code, to require insurance coverage for certain equine-assisted therapies. As revised, the bill mandates that group or individual accident and health insurance policies amended, delivered, issued, or renewed on or after January 1, 2027, must provide coverage for medically necessary services that incorporate equine movement as part of a therapeutic intervention. This language replaces the original reference to “hippotherapy and other forms of therapeutic riding,” thereby broadening and clarifying the scope of covered services to include a wider range of equine-assisted therapies used for medical purposes.

The bill also updates relevant provisions in the State Employees Group Insurance Act of 1971, the Counties Code, the Illinois Municipal Code, the School Code, and the Health Maintenance Organization Act to reflect the new insurance coverage requirements. Changes to definitions were included to ensure consistency and proper application across these statutes. These provisions aim to increase access to equine-assisted therapy for individuals with medical needs, including those served by public employee insurance programs. **(No Position)**

LAND USE AND ZONING

HB 1367 (Rep. Ortiz; Sen. Edly-Allen) - TWP OPEN SPACES-LEASE OR SALE

This legislation amends the *Township Open Space Article* of the Township Code to expand flexibility in the use, leasing, and transfer of township-owned open space. It reduces the minimum acreage required for land to qualify as open space under the Code from 50 acres to 12 acres. The definition of “open space purposes” is expanded to clarify that development includes development for agricultural uses, thereby reinforcing that open space may be actively managed or utilized while still serving preservation goals.

The legislation authorizes township boards to lease open space for up to 25 years to individuals, nonprofits, or governmental entities for purposes aligned with open space goals, including agricultural uses. At the end of such leases, any structures on the land become the property of the township. While the sale, conveyance, or donation of open space remains restricted and requires both a two-thirds vote of the township board and approval by referendum, an exception is created to allow transfers to the Illinois Department of Transportation under certain conditions without a referendum. In the event of township dissolution, consolidation, or boundary changes, open space must continue to be used for open space purposes unless transferred to another government or nonprofit for those same purposes, or disposed of following the appropriate two-thirds board vote and referendum approval.

HB 3098 (Rep. Olickal; Sen. Holmes) - CONSUMER ELECTRONICS RECYCLING

This legislation amends the Consumer Electronics Recycling Act to make several substantive changes aimed at expanding and clarifying the scope and operation of electronics recycling in Illinois. It revises definitions throughout the Act, including eliminating the requirement that certain devices like computers, monitors, and printers be used in residences to qualify under the Act. It replaces references to “residential covered electronic devices” with broader references to “covered electronic devices (CEDs) from covered entities,” thereby expanding applicability.

The legislation authorizes nonprofit organizations and recyclers, in addition to retailers, to operate as collection sites in manufacturer e-waste program networks, with the agreement of the applicable retailer when necessary under local arrangements. References to “retail collection sites” are updated to include “retail or private network collection sites.” Requirements for agreements among parties in the manufacturer e-waste program are expanded to include written documentation and additional detail in e-waste program plans.

Additional conditions are imposed on counties, municipalities, or municipal joint action agencies participating in the program. New waiver provisions are introduced that allow for the waiver of certain charges related to shortfalls in CED collection. The legislation also expands the responsibilities of the Advisory Electronics Task Force, requiring it to provide specified information to the Illinois Environmental Protection Agency (IEPA) and to engage in communication regarding updates and stakeholder feedback.

Further, the legislation introduces new requirements related to education and consumer awareness efforts to promote proper electronics recycling. The automatic repeal of the Act is delayed from December 31, 2026, to December 31, 2031. Lastly, it clarifies manufacturer registration requirements by mandating that manufacturers include a list of all brands and labels under which their CEDs are marketed, sold, or offered for sale to individuals in Illinois, not just those sold. **(No Position)**

However, the legislation also imposes certain limitations. Equipment placed by a county or municipality may not be located within or interfere with the electric distribution or transmission systems in the communication worker safety zone or the electric supply zone of a utility pole. All installations must comply with relevant codes and local safety regulations. Additionally, counties and municipalities are prohibited from placing equipment on infrastructure or property owned by public utilities.
